## HYDRAULIC FACE SHOVEL BUCKETS

Manufactured, upgraded or rebuilt to suit your mining application. Our hydraulic face shovel buckets are engineered to withstand the harshest conditions delivering improved productivity, greater strength and longer wear life.

## FIELD SERVICE REPAIR

Count on CarWil and our 24/7 field service experts to get your operation up and running as quickly as possible. Trust us with your booms, sticks, beds, ROPs and Field Machining. Our technicians are experts in crisis management and trained to provide effective solutions. Call us day or night. We'll be there whenever you need us.

## FULL SERVICE REBUILD CENTERS

Located in Winnemucca, Elko and Salt Lake City area, CarWil has over 50,000 sq. ft. spanning 20+ acres to perform new construction or rebuilds on mobile equipment components, including your existing hydraulic face shovel buckets, truck bodies, dipper buckets, front-end loader buckets, and excavator buckets. Wear characteristics of each item are carefully examined and modified to improve performance and lower future maintenance costs.
